VOLUME 40 NOS. 1–3 SPECIAL ISSUE

GEOCHEMICAL EXPLORATION 1989, PART I

Selected Papers from the 13th International Geochemical Exploration Symposium, held in Rio de Janeiro, Brazil, October 1–6, 1989.

ARTHUR W. ROSE and PAUL M. TAUFEN (Editors)

CONTENTS

Preface—A.W. Rose and P.M. Taufen vii
The 13th International Geochemical Exploration Symposium and the Second Brazilian Geochemical Congress
P.M. Taufen ix
Presidential Address: The international dissemination of scientific information: The AEG connection
M.A. Chaffee 1
Keynote Address: The effect of scale on the interpretation of geochemical anomalies
P.K. Theobald, R.G. Eppinger, R.L. Turner and Shen Shiquan 9

Sampling and Geochemical Behavior of Gold and Platinum Metals

Geochemical exploration for gold: A new approach to an old problem
Xie Xuejing and Wang Xueqiu 25
Geochemical dispersion of gold related to copper-gold mineralization in northeastern Thailand
T. Nuchanong, O.P. Lavin and I. Nichol 49
The morphology and chemistry of transported gold grains as an exploration tool
A.H. Grant, O.P. Lavin and I. Nichol 73
Gold distribution and mobility in the surficial environment, Carajas region, Brazil
W.O. Andrade, M.L. Machesky and A.W. Rose 95
Supergene geochemistry and crystal morphology of gold in a semiarid weathering environment: Application to gold exploration
P. Vasconcelos and J.R. Kyle 115
Adsorption of colloidal gold on colloidal iron oxides
J. Enzweiler and I. Joekes 133
Reconnaissance and detailed geochemical surveys for gold in eastern Nova Scotia using plants, lake sediments and till
C.E. Dunn, W.B. Coker and P.J. Rogers 143
The behaviour of platinum group elements in the surficial environment at Ferguson Lake, N.W.T., Rottenstone Lake, Sask. and Sudbury, Ont., Canada
W.B. Coker, C.E. Dunn, G.E.M. Hall, A.N. Rencz, R.N.W. DiLabio and W.A. Spirito 165

Carbonatites, Granites, and Alkaline Rocks

Geochemical exploration of the Maicuru alkaline–ultramafic–carbonatite complex, northern Brazil
M.L. Costa, L.R. Fonseca, R.S. Angelica, V.P. Lemos and R.L. Lemos 193
Aspects of the geology, petrology and chemistry of Angolan carbonatites
A.I. Filho, A.B.R.D.M. Dos Santos, B.F. Riffel, F.E.V. Lapido-Loureiro and I. McReath 205
Geochemical characteristics of cryolite-tin-bearing granites from the Pitinga Mine, northwestern Brazil—A review
M.A. Horbe, A.C. Horbe, H.T. Costi and J.T. Teixeira 227

The main geochemical features of carbonatites
V.S. Samoilov 251
High-technology metals in alkaline and carbonatitic rocks in Greenland: Recognition and exploration
A. Steenfelt 263

Rock Geochemistry

Rock geochemistry of an iron ore field in the Divrigi region, central Anatolia, Turkey: A new exploration model for iron ores in Turkey
H. Stendal and T. Unlu 281
Rock geochemistry and fluid inclusion studies as exploration tools for ore deposits in the Sila batholith, southern Italy
B. De Vivo, R.A. Ayusco, H.E. Belkin, A. Lima, A. Messina, and A. Viscardi 291
Ammonium geochemistry of some Mexican silver deposits
J. Ridgway, B. Martiny, A. Gomez-Caballero, C. Macias-Romo and M.G. Villasenor-Cabral 311
The geochemistry of albitization and related uranium mineralization, Espinharas, Paraiba (PB), Brazil
C.L.P. da Silveira, H.D. Schorscher and N. Miekeley 329
The use of tourmaline in geochemical prospecting for gold and copper mineralization
P.V. Koval, L.D. Zorina, N.A. Kitajev, A.M. Spiridonov and S. Ariunbileg 349

Laterites and Weathered Rock

Control of the distribution of Mn, Co, Zn, Zr, Ti and REEs during the evolution of lateritic covers above ultramafic complexes
A. Marker, G. Friedrich, A. Carvalho and A. Melfi 361
Geochemical evolution of laterites from two areas of the semiarid region in Bahia State, Brazil
I.G. Carvalho, S.S.P. Mestrinho, V.M.S. Fontes, O.P. Goel and F. de A. Souza 385
Weathering and its effect upon geochemical dispersion at the polymetallic Wagga Tank deposit, N.S.W., Australia
K.M. Scott, G. Rabone and M.A. Chaffee 413
Application of some statistical techniques to weathered rock geochemical data from the Broken Hill area, New South Wales, Australia
O.P. Lavin and I. Nichol 427
